

FACTS BCIS' School Management System

We have set up FACTS' ParentsWeb which gives you an opportunity to get more involved in your child's academic progress and future success – all via the Internet. RenWeb or FACTS' ParentsWeb is a private and secure parent portal that will allow parents to view academic information specific to their children while protecting their children's information from others. You can see your child's grades, attendance, behavior updates, announcements from teachers as well as other useful school information. You can also communicate with teachers and other school staff online whenever necessary. All you need is an Internet capable computer or device.
